About us - Beyond Borders

Beyond Borders Italy is an international, cultural and social organization, legally established in July 2014 in Puglia, Italy.

Our activities are based on non-formal educational methodologies, increasing key competences of young people, activating them in building a more inclusive society, stimulating their creativity and growth through the implementation of creative labs and public events.

We address schools to integrate their formal education with our non-formal activities. We are active in supporting local charity services to enhance social cohesion and integration of marginalized groups.

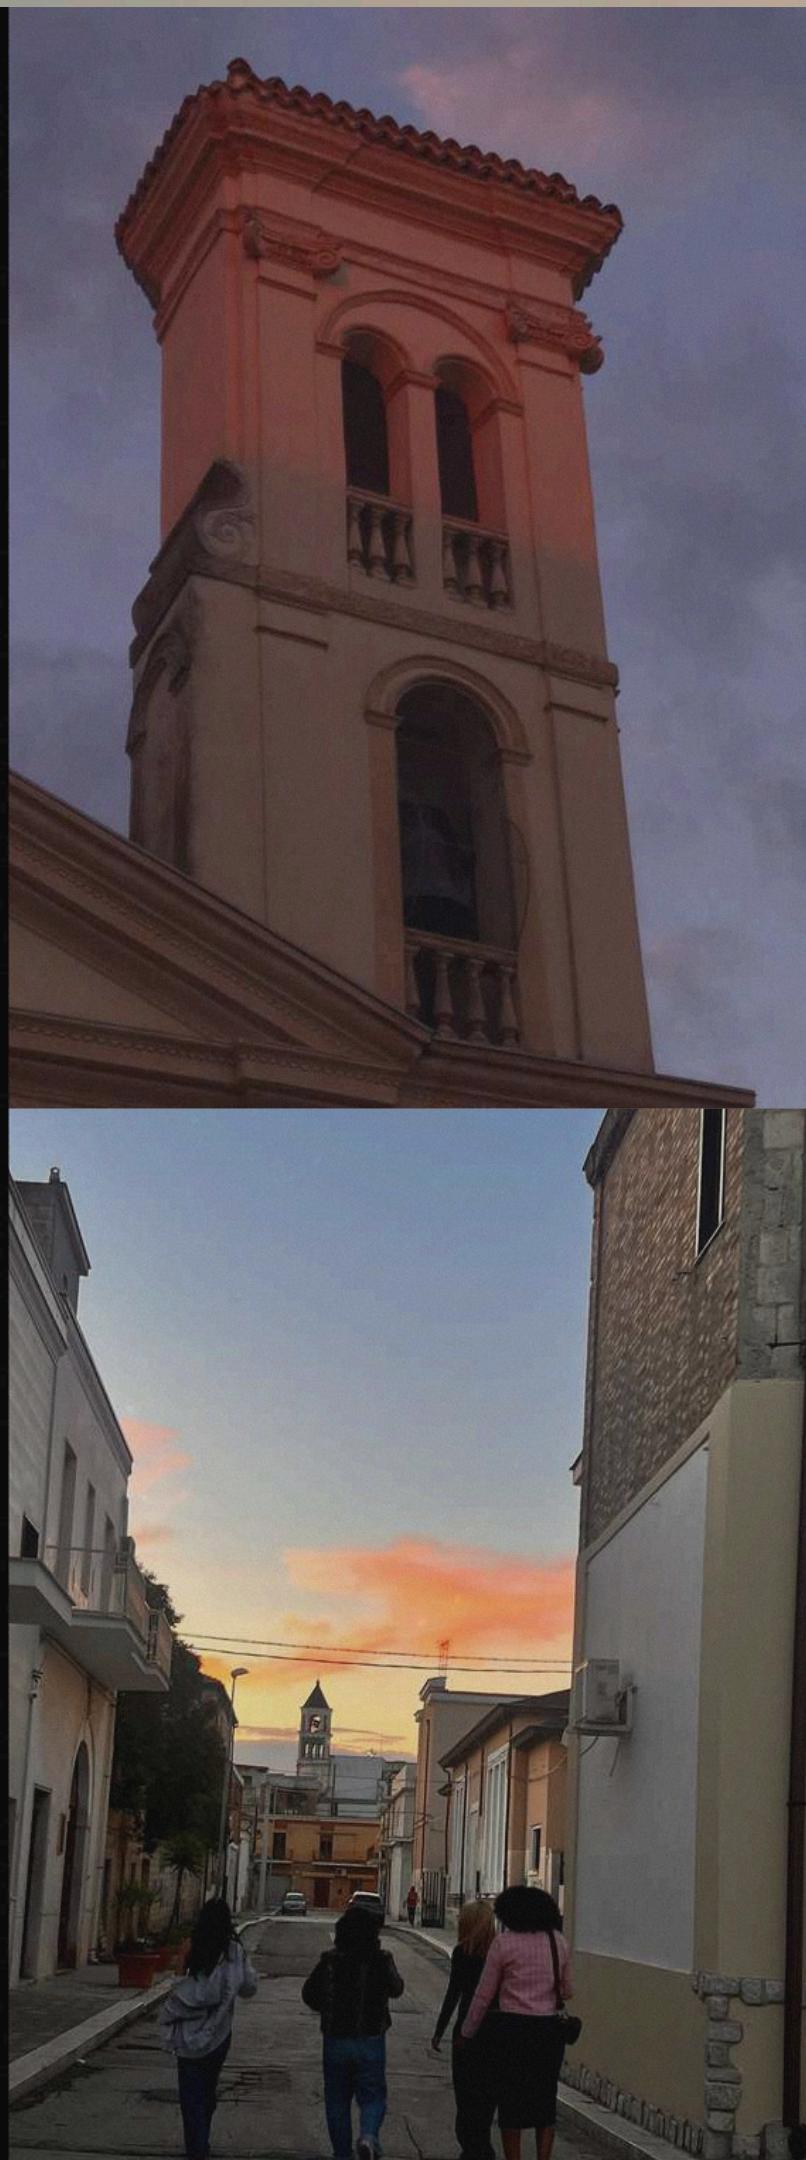

About us - Beyond Borders

Our main target group is young people between 16 and 35 years old living in our local area. In our activities we are providing opportunities and we are acting towards the empowerment and broadening perspectives of young people who can enrich their community by bringing back personal and professional development.

THE PLACE - ORTA NOVA

Orta Nova is a town located in the province of Foggia, in the Puglia region, Southern Italy. Orta Nova has a population of around 18,000 people. It has a strategic geographical position, which eases the reaching of many touristic surroundings (Bari, Lecce, Naples, Rome, Matera, etc.) Living in a rural area like Orta Nova has many advantages, including a slower pace of life, access to fresh, locally grown products, and a strong sense of community.

OPORTUNA

The town offers a peaceful and relaxed way of life, away from the hustle and bustle of larger cities. Additionally, the cost of living is generally lower in rural areas, making it an affordable option.

HEAR FROM THEM!

Are you curious about the direct experience of our ESC volunteers?
Here some of their thoughts about us:

WERA

A year that has changed everything. Literally everything. In the end, it never was “just a project” for me. I have never came “home” to Poland - because my real one I have found right here. I moved to Orta Nova and my story has never finished. Beyond Borders became a part of me that I never knew about. An endless dream in which I live.

ZEYNEP

Just a few hours after resigning from the job I had been working at for nearly four years, I found myself on a plane headed to Orta Nova, a small town in the south of Italy. There are countless unforgettable memories I could share. I discovered more about myself and had the chance to inspire others.

WERONIKA

“We established a beautiful bond with Maria and Brigida, who have been always greeting us with a big smile. I was assigned to the role of “secretary”, organizing old books which helped me to learn Italian. One of the most important points of our volunteering was the “Polish Night” event, prepared entirely by us. We expected a maximum of 30 people there, but twice as many came. For one evening, Orta Nova became a uniquely Polish place.”

EVA

I feel like I’ve grown ten years older in three months. I was afraid of the unknown, of speaking a language other than my own, of living, being, and doing things with other people, and now I can’t imagine continuing my life any other way than what I’ve experienced with Beyond Borders.

TONI

Orta Nova, no matter how small it is, gave me the opportunity to grow and spread my wings. A single year here feels like ten, considering how much you develop and learn. Staying here was the best decision I could have made as a young person fresh out of high school, and I wouldn’t trade my experiences here for anything.
